

Meeting Date: 08/28/2015

Number of Applications Scheduled: 6

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
17590-1	Don Arnold	The project is located on the property at 970 River Crest Drive in West Sacramento.	Yolo	Sacramento River	To install a swimming pool, inground spa, drainage system, and sump pump.	Sacramento Maintenance Yard	The Board determined that the project is categorically exempt from CEQA under a Class 3 Categorical Exemption (CEQA Guidelines Section 15303) covering new construction of small structures.
18897	Reclamation District 341	The project is located along the south side of Highway 160 adjacent to Horseshoe Bend, on Sherman Island approximately 7 miles northeast of Antioch, in Sacramento County.	Sacramento	Sacramento River	The proposed project includes installation of drainage features along the land side levee toe. The improvements include placement of filter fabric to stop embankment material migration, installation of a drainage system consisting of drain rock and outfall pipes to control seepage, and import of embankment material to buttress the levee system.	Reclamation District 341	The Board, as a responsible agency under CEQA, has reviewed Initial Study/Mitigated Negative Declaration (IS/MND) (SCH Number: 2013072034, July 2013) and Mitigation Measures for the Sherman Island SH 10-2.0 Highway 160 Levee Seepage Repair Project prepared by the lead agency, Reclamation District 341. These documents are available for review in hard copy at the Board and the Reclamation District 341 offices. Reclamation District 341 determined that the project would not have a significant effect on the environment on September 10, 2013, and filed a Notice of Determination on September 11, 2013 with the Sacramento County Clerk and the State Clearinghouse. Board staff finds that although the proposed project could have a potentially significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. The project proponent has incorporated mandatory mitigation measures into the project plans to avoid identified impacts or to mitigate such impacts to a point where no significant impacts will occur. These mitigation measures are included in the project proponent's IS/MND and address impacts to air quality, biological resources, cultural resources, transportation and traffic. The description of the mitigation measures are further described in the adopted IS/MND.
18937	Arnold Netto	The project is located slightly west of the intersection of 10th Avenue and Denver Avenue east of the town of Laton.	Kings	Dutch John Cut Slough	To permit an existing 41-acre almond orchard.	Kings River Conservation District	The Board determined that the project is categorically exempt from CEQA under a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) covering existing facilities.
19029-1	J. G. Avila Farms	The project is located south of W Mt Whitney Avenue approximately 2.06 miles southwest of the Community of Lanare.	Fresno	Fresno Slough	To install an irrigation system and to plant and maintain 130 acres of pistachio trees within the left bank overflow area of the North Fork, Kings River.	Kings River Conservation District	The Board determined that the project is categorically exempt from CEQA under a Class 3 Categorical Exemption (CEQA Guidelines Section 15303) covering new construction of small facilities.
19033	Butte Creek Farms	The project is located along Butte Slough Road approximately 770 feet downstream from the Colusa Bridge (River Road) at Levee Mile 5.0.	Colusa	Sacramento River	To authorize an existing 7- by 10 foot concrete water intake box that is connected to a new 31 foot long, 36 inch diameter steel pipe that is connected to a 48 inch diameter vertical CMP riser with a 36 inch slide gate, all on the left (north) bank of the Sacramento River. The vertical CMP riser is connected to a 36 inch diameter CMP that runs through the levee and under Butte Slough Road to a landside concrete water discharge box. Portable diesel pumps and temporary aluminum pipe convey water to the intake box during the growing season.	Sutter Maintenance Yard	The Board determined that the project is categorically exempt from CEQA under a Class 2 Categorical Exemption (CEQA Guidelines Section 15302) covering replacement of existing small facilities.
19035	Islands, Inc.	The project is located on Highway 84 approximately 0.95 miles north of Highway 220 on Ryder Island.	Solano	Miner Slough	To replace an existing 16-inch irrigation siphon pipe.	Reclamation District 501	The Board determined that the project is categorically exempt from CEQA under a Class 2 Categorical Exemption (CEQA Guidelines Section 15302) covering replacement of existing small facilities.
